RE: Gerri Monhollen

To whom it may concern:

It gives me great pleasure that I submit this written testimony on behalf of Mrs. Gerri Monhollen in support of her new billing company, Doctors' Revenue Management Services.

I've known Gerri for approximately 13 years now. I find her to be highly self-motivated and very capable of achieving any goal she sets her mind to. Our organization hired her as a billing consultant to resolve our Medicare and Medicaid billing issues. Within 30 days of her review and resubmission of our denied claims, we received a check from Medicare that was well over \$40,000.00. She also collected over \$35,000.00 just by winning provider appeals for our office.

She did a phenomenal job as our billing consultant and has proven to be a Physician's advocate. She promptly identified our billing errors and provided training for our staff, as well as the physicians to prevent future billing and coding errors.

I feel that Doctors' Revenue Management Services will be a great asset to any provider's office, as they too will benefit from her billing and coding expertise. She is "politely" aggressive and works with enthusiasm, expectancy, and professionalism. I feel confident that she will deliver your desired results and improve your collections.

She has a great rapport with our group and I know you'll enjoy working with her as well. Together with her office management experience and billing expertise, you too will benefit from her services.

I am writing this letter of support without hesitation or reservation. If there are any questions or concerns that may arise as a result of this letter, please feel free to contact me.

Kindest regards,

Errol J. Stern, M.D.
