**RE: DOCTORS REVENUE MANAGEMENT SERVICES**

To Whom This May Concern:

I would like to recommend Doctors Revenue Management Services (DRMS) to any physician group looking for an efficient, effective, passionate medical billing service.

Our practice has utilized the expertise of DRMS for medical billing and account management and very simply, I have found no other resource with more knowledge in the area of medical coding, billing, documentation, and credentialing. DRMS provides timely collection and account management with a bottom line impact of consistent cash flow.

It is without reservation that I would endorse your consideration of DRMS for your medical billing needs. You will find this company to be one of integrity, fairness, and ultimately a positive impact on your practice cash flow.

Respectfully,

  
John E. Ruch DC

President/Physicians Healthsource Inc.
