To Whom It May Concern:

RE: Gerri Monhollen

If you want to see your business prosper financially and expand, in my professional opinion, there is no one more qualified than Gerri Monhollen. I know this because she has accomplished these things for me. I am pleased to recommend Doctors Revenue Management Services as a billing and management service to anyone that is in need of a "strong" business leader. She started my solo practice from day one and has maintained a steady cash flow ever since and continues to do so.

We have a strong and positive business relationship. Moreover, her knowledge goes beyond that of billing and business administration into various fields of health administration, such as Human Resources, Accounting, Accounts Payable, Accounts Receivable, Payroll, Credentialing, Practice Development and Recruitment. She has a "keen sense" of business that has proven to be a great asset to my practice and success for many years.

She leads the staff with integrity, has a good work ethic, and also demonstrates strong communication and writing skills. Her management duties are performed successfully, which has led to my organization saving thousands of dollars each year.

In addition to Gerri's own experience and knowledge, her staff is also reliable and helpful. Most importantly, Gerri's management and productivity have allowed me to focus more on patient care. The Practice Management and EHR system she provided and implemented with training is excellent and affordable.

I submit this letter of recommendation without hesitation and am confident that she will perform admirably and be a great asset to any new client.

Respectfully,

Luis F. Pagani, M.D.

President
